

SCC.421 Dissertation Proposal: Examining Changes to “Good” Code Style Over Time

Luca Davies

M.Sci. (Hons.) Computer Science (with Industrial Experience)

13th March 2021

Abstract

The proposed project will examine the ever-changing code styles and best practices for a number of popular programming languages over the course of the last twenty to thirty year. This covers the time from the inception and early years of some of the world's most widely used programming languages.
